

As we continue our #ThankfulThursday series, we'll begin looking back at our department's history. Each week this month, we'll introduce you to a member of the Sienna REC-ing Crew's extended family in our [#ThankfulThursday](#) segment. These are persons who have worked in our department throughout it's history and laid the foundation for many of the programs you enjoy today!

To kick it off, we want to introduce you to Kevin Browne! Kevin was Sienna Rec's VERY FIRST intern, back in 2008!

Kevin is a native of Fort Worth. Since he worked in Sienna, Kevin has gotten married, and he and his lovely bride, Megan, have two beautiful daughters, Michelle and Julia, two dogs, two cats, 4 African Cichlids...and a mystery snail. Kevin is a proud Fightin' Texas Aggie, where he earned his bachelors degree and then went down the road to Sam Houston State and earned his masters degree.

We asked Kevin what his most rewarding Sienna job experience was and he said, "I was able to experience so many new and different programming opportunities and I was always encouraged to pursue new ideas for programs and events that would bring value to the citizens of Sienna. I am most proud of helping get the adult softball league off the ground."

Kevin has continued his parks & recreation career incredibly successfully! Kevin is currently the Recreation Superintendent for Missouri City Parks and Recreation. In 2019, Kevin was named the Texas Recreation & Park Society East Region Recreation Professional of the Year and was the Texas Recreation & Park Society Presidential Award of Honor Recipient that year as well. Then, in 2020, Kevin was named the Texas Recreation & Park Society Young Professional of the Year. Kevin shared, "I look back fondly on the time I spent and the lessons I learned working at Sienna. I also had the privilege of getting to know and work alongside other incredibly talented and driven young professionals in our industry that have come through Sienna as well and continue to make their mark on our industry across the region and state."

Kevin, we're so proud to call you a Sienna REC-ing Crew alumni...and love watching your amazing career blossom!
