

On this #ThankfulThursday, we highlight Randy Risher, President and Owner of The Risher Companies, a 17+ year partner with Sienna and a major sponsor of recreation, health and wellness in the community!

Randy is a native of Crossett, Arkansas and attended University of Arkansas at Monticello for his undergraduate studies and and University of Louisiana at Monroe for his post-graduate work. Randy and his wife, Dr. Neela Patel, have one daughter, a senior, getting ready for college!

Randy is an outdoorsman. He loves duck, pheasant, quail & dove hunting, fishing off the coast of Port O'Conner, anything to do with outdoor conservation & riding his Harley! He also enjoys traveling!

We asked Randy who he most admires, and he had arguably the most interesting story of anyone we've talked to: "President George H.W. Bush. I had the opportunity to be his personal trainer for a number of years and he had a huge influence on my life. I could talk all day about my time with him". WOW!

We wanted to know what his favorite "spot" in Sienna is, and assumed it was one of two places...and we were right: "Brushy Lake Fitness Center".

We asked him what has been most rewarding in your role working with the Association in regards to recreation programming during his tenure, and he said, "Working with a first class staff and seeing all residents of Sienna having the opportunity to enjoy the many amenities afforded to them. Sienna is very special community to me and I appreciate the opportunity to work with the Association."

Randy: we appreciate all of your and The Risher Companies' support of and promotion of recreation programming in Sienna over the years. We look forward to many years to come of working together to continue to grow the lifestyle that residents love so much living here!
